For more than 30 years, Outreach International has provided sustainable solutions to help end extreme poverty around the world. The seemingly ordinary items in your Sustainable Gifts Catalog will have an extraordinary impact on the poor who need them. Chickens for eggs. Land to harvest food. School fees for an education. And more: dignity, hope and self-reliance. So go ahead and start shopping today. These meaningful gifts will mean more than you can ever know.

HOW IT WORKS: Purchase any item you see. Your donations support Sustainable Good in villages around the world where Outreach International is working to end poverty. While we don't actually ship these items (chickens, after all, don't take kindly to bubble wrap), your donation will go directly to where the need is the greatest, which can lead to providing these and other life-giving resources. Each item in this gift catalog is representative of actual outcomes of our work in the field.

HONOR A LOVED ONE

For each person you honor with a gift, we'll send you a beautiful card — and a meaningful description of your gift — that you can personalize for any occasion.

Want us to take care of it for you?

Order online at outreachshop.org or call 1-888-356-7777 and we'll personalize and mail your gift cards for you — it's free!

WATER BUFFALOES ARE BIG ANIMALS THAT MAKE A HUGE DIFFERENCE.

There are fields out there that can be made much more productive by having an animal to plow them and provide fertilizer. The solution is simple. Just add water buffalo.

WATER BUFFALO. *Item # 2029 \$300*

SHARE OF WATER BUFFALO.

Item # 2078 \$50

YOU MIGHT NOT KNOW WHAT TO DO WITH A WATER BUFFALO, BUT THERE ARE PLENTY IN THE WORLD WHO DO. In many cases, one animal can be the gateway to a variety of opportunities not just for one person, but for an entire village.

After a small village in the Philippines acquired a water buffalo with the help of Outreach International, they quickly saw benefits from having milk to sell along with more productive harvests. With the extra income that the buffalo helped generate, villagers now had money to contribute to a community fund. This fund allowed villagers to borrow money to start their own personal business ventures or income gardens, instead of having to rely on rich land owners for loans.

Since then, the community fund has continued to grow, and more and more people have freed themselves from the cycle of debt and poverty they once knew.

It all started with just one water buffalo, and now you have the opportunity to give this magnitude of a gift to another needy village.
